

Higher Education Information September 2026

Discover Uni

This is the official source of information and guidance on higher education in the UK. The site allows users to search for and compare information and data for individual undergraduate courses across the UK, alongside researching other sources of advice they may need such as application and funding information.

University GUIDANCE –

Watch university guidance videos, please take a moment to browse the new university guidance webinar hub, where students and school groups can watch webinars ranging from an introduction to university courses in accounting through to Veterinary Science. As well as hundreds of subjects in between – delivered by experts at universities UK wide.

<https://www.unitasterdays.com/ondemand>

These videos have one key aim. To support students who are considering university to make informed future decisions. They feature guest speakers from a range of different universities, who are always experts in the subject they are speaking about.

The content is always impartial, and topics range from the general content students will find useful – like how to write personal statements, student finance, UCAS applications and more.

These subject videos introduce studying a range of different subjects at university. We cover reasons to consider the subject, what to expect when studying it, a guide to future career opportunities and even application tips. From Accounting to Veterinary Medicine - and 100's of subjects in between.

Springpod has recently partnered with UCAS to bring your students even more valuable university experience opportunities! This collaboration allows us to connect students with top universities across the UK, helping them gain the insights, knowledge, and skills they need to make informed decisions about their future.

Higher Education Information September 2026

Our University Experience programmes are now open for students to start right away. These short courses, which take around an hour to complete, can be started at school or home. Each programme includes engaging video content and interactive activities, giving students a real taste of university life and the subjects that interest them.

Students have access to a wide range of FREE programmes in fields like law, engineering, medicine, computer science, and more. With our new partnership with UCAS, completing these programmes will also provide students with certificates they can include on their CVs and Personal Statements, enhancing their UCAS applications.

How do students get started?

All they need to do is create a free account and click 'start now' to dive into the programme. They can pick up right where they left off anytime by accessing the programme from their dashboard, making it easy to fit around their schedule.
