

The Directions Virtual Careers Board September 2026

Directions Virtual Careers Information Board

The Directions Virtual Careers Board is an online, interactive Padlet noticeboard used to showcase information about career pathways, educational opportunities, and employment resources. It functions as a digital hub, often used by schools and career hubs to provide real-time updates for students, parents, and caregivers.

Key features and contents typically included in the Careers Padlet include:

- Apprenticeship Opportunities: Information on vacancies, providers, and National Apprenticeship Week updates.
- University & Further Education: Resources about higher education, studying abroad, and university choices.
- Work Experience & Volunteering: Links and guidance on preparing for work placements, part-time jobs, and volunteering.
- Career Advice & Resources: Information on CV writing, interview preparation, and labor market information (LMI).
- Events: Details about career fairs, workshops, and webinars.

What is Padlet?

Padlet is a web-based, collaborative tool that allows users to create digital pinboards. It is commonly used in education to curate content, where creators can add text, images, videos, links, and documents.
